INTRODUCTION

The Hult Prize Foundation is a disruptive global leader in social entrepreneurship and youth empowerment for the 21st century. The Hult Prize has brought impact focused programs, events, and training to over a million students globally from 120+ countries, creating a pathway for youth everywhere to take action to build a better world. Each year, tens of thousands of university students from dozens of countries participate, and since its inception, participants have represented 5,000+ institutions of higher education.

Hult Prize inspires student entrepreneurs to solve the world's biggest challenges through innovative social enterprises with positive global impact.

Through our year-long competition and since its inception, over 1 million young people from 120+ countries have participated in our programs, working to create high-impact startups that address the annual challenge in alignment with the UN Sustainable Development Goals.

Finalists pitch their businesses to a panel of expert judges, and the winning team receives \$1M USD in funding to make their idea a reality.

Hult Prize at Amrit Science Campus is one of the local Hult Prize OnCampus programs in Nepal through which students advance to the global round. The final round of Hult Prize Amrit Science Campus was conducted on February 25, 2024 at the Auditorium Hall of Tribhuvan University Central Campus.

OUR ONCAMPUS PROGRAM

Hult Prize hosts OnCampus programs all over the world before hosting the regional competitions. Hult Prize at Amrit Science Campus is an OnCampus program through which the winning team from the campus goes on to represent the college at the regional competitions outside Nepal.
